summary

A motivated and detail-driven QC Tester passionate about delivering high-quality software through structured testing practices and analytical thinking. Experienced in working within Agile/Scrum teams, with a strong eye for identifying issues early and ensuring seamless user experiences. Combined hands-on experience in manual and automation testing ,SQL and API Testing with effective communication and collaboration with stakeholders to bridge the gap between development and business needs.

Education

Bachelor degree of computers and information (IT Department) Menoufia university , class of 2018

Intern experience

Manual Software Tester

Projects:

Financial Egyptian and global Stock markets (Nemrmal) at Al-janahain co.

Feb 2025 Remotely

Applying manual testing with analytical thinking to achieve the highest coverage of high and low level scenarios using Jira tool:

- Analyzed business requirements, functional specifications, and user stories to identify gaps, ambiguities, and testability issues prior to test execution.
- Designed end-to-end test scenarios covering positive, negative, boundary value, and edge cases scenarios based on business flows and user journeys.
- Wrote detailed, structured and clear test cases.
- Maintained traceability between test cases and their corresponding requirements or user stories across multiple releases
- Reported detailed and reproducible bug reports in Jira.
- Linked defects to relevant user stories and assigned them to the appropriate developers for resolution
- Made confirmation (sanity test) to check whether bug is already fixed or not.

Training and Courses

Software Testing at Digital Egypt Pioneers Initiative – DEPI

Dec.2025 to present

Skills

Technical skills

- Automation testing with Java using selenium framework
- API testing using Postman and swagger.
- SQL using MySQL
- Manual testing
- Jira tracking tool.
- Trello App
- Zephyr scale App
- Python
- Html ,CSS

Soft Skills

- Attention to details
- Analytical thinking
- Team Working
- Time management

Languages:

- English.
- Arabic (native).

Extracurricular Activities :

Teaching html , CSS and python programming languages in RTC Resala Training Center

2016:2020
